Devon Batemon

Full Stack Web Developer

SUMMARY

Creative, detail-oriented, full stack developer with a deep interest in Design. I combine my skills as an artist and my passion for technology to make my ideas come to life. Looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Full Stack Web Developer at 100devs, Los Angeles, CA | remote

January 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

RECENT PROJECTS

Pokemon card gallery website

— Html | css | javascript | bootstrap | fancybox

- A gallery website where you can view all card sets of pokemon tcg released. In the future I hope to implement up to date PSA sold listing prices.

Crypto Watch

— React | Axios | npm | AOS

- A simple crypto app that fetches current market prices and filter searches for any specific one.

EDUCATION

Nucamp, Remote

July 2020 — March 2021

Attended and completed a front-end, back-end, and mobile development bootcamp. Main courses focused on perfecting html, css, and javascript as well as learning/building apps with react, react native, express, mongodb, and node.js.

Southern New Hampshire University, Remote

April 2017 — November 2018

Major: Computer Science
